

Multiplication: Make a Model - 1

Make the model to find the product of a 2-digit number and a 2-digit number.

$$45 \times 37 = \underline{\hspace{2cm}}$$

$$56 \times 63 = \underline{\hspace{2cm}}$$

$$72 \times 24 = \underline{\hspace{2cm}}$$

Multiplication: Make a Model - 2

Make the model to find the product of a 2-digit number and a 2-digit number.

$$57 \times 46 = \underline{\hspace{2cm}}$$

$$92 \times 73 = \underline{\hspace{2cm}}$$

$$84 \times 27 = \underline{\hspace{2cm}}$$

Multiplication: Make a Model - 3

Make the model to find the product of a 2-digit number and a 2-digit number.

$$36 \times 57 = \underline{\hspace{2cm}}$$

$$84 \times 58 = \underline{\hspace{2cm}}$$

$$29 \times 45 = \underline{\hspace{2cm}}$$
